KleenGuard A20 Coveralls

Breathable Particle Protection Apparel

KleenGuard A20 Coveralls are made from Microforce Barrier SMS, a breathable fabric that provides improved barrier protection on submicron-sized particles for a perfect combination of protection and comfort.

The tough, durable cloth-like outer layer is an abrasion-resistant, spunbond polypropylene and the middle layer is an intricate web of microfibers that filter out light, water-based liquids and dry particulates. These white coveralls are ideal for maintenance and general clean-up work, including asbestos handling, lead abatement and fiberglass/cellulose insulation operations.

Zipper Front
Elastic: Back, Wrists & Ankles
